

NEW YEAR, NEW PRODUCT LINE

Midsteel Flanges & Fittings is thrilled to announce that our new product line is finally here: the Metric Tube & Fittings solution, accompanied by Dairy Tube and BSP 150Lb Fittings. Our customers will be more than happy to know that this comprehensive range of products is designed to take into consideration their ever-changing needs. We guarantee they will find exactly what they were looking for with our new series.

Midsteel takes pride in introducing these quality products to the market, setting the bar high when it comes to performance and reliability.

A SURVEY THAT DELIVERED REAL RESULTS- THANK YOU

Our recent customer satisfaction survey was a great success, and we could not be more pleased with the results. The survey enabled us to gather a huge amount of valuable feedback from customers, giving us an insight into our service that we wouldn't have known otherwise. As a direct result of the data collected, we are now in the process of implementing changes to continuously strive for a better customer experience.

We'd like to thank everyone who took part in the survey and demonstrate our commitment to ensuring you have the best possible service!

Welcome to your new **Steel Market Updates** newsletter which brings you the latest information on steel supply and updates from the Midsteel team.

OUR FOCUS HAS BEEN ON INCREASING SUPPLY, TO BETTER SERVE THE NEEDS OF CUSTOMERS IN THE WEST MIDLANDS AND BEYOND.

THE EXPANSION OF THE INVENTORY ALSO MEANS THAT CUSTOMERS WILL NOW RECEIVE FASTER DELIVERIES THAN EVER BEFORE.

MIDSTEEL OFFERS NEXT DAY DELIVERY ON STOCK ITEMS THROUGHOUT MAINLAND UK AS STANDARD SERVICE.

UNPARALLELED CUSTOMER SERVICE

Whether you're looking for Metric Tube, Dairy Tube, or BSP 150 Lbs Fittings, Midsteel Flanges and Fittings has you covered. With a comprehensive range of solutions to meet all your needs, we are rapidly becoming known as a go-to source in the industry.

The best part?

Our products come backed by unparalleled customer service that provides both technical advice and quick assistance. From commercial and industrial applications to off-shore segments, Midsteel Flanges and Fittings are setting an industry standard that's hard to beat.

The stainless steel market is heating up!

The recent stability in stainless steel prices may be short-lived, as a number of factors could create upward pressure in the near future. With energy costs steadily rising, tensions continuing to soar in Ukraine, and the Chinese New Year starting, it's quite possible that prices will start to increase. It's important for stainless steel buyers and sellers alike to keep their eyes on the market, however; while there could be sharp swings in price later in January, gradual increases are also likely if current conditions prevail. In either case, keeping abreast of developments can mean avoiding nasty surprises down the road.

The safety, ethical integrity, and financial reliability of our clients is always our top priority!

Midsteel Flanges & Fittings Ltd is delighted to announce that we have successfully obtained SafeSupplier credentials! This means our clients can enjoy the peace of mind knowing their safety, ethical integrity, and financial reliability are all verified by an independent third-party organisation. Midsteel prides itself on this noteworthy achievement and strives to continue providing highly credible assurances for years to come.

GROWTH

WE ASKED, YOU SPOKE-CUSTOMER SURVEY

At Midsteel Flanges and Fittings, we value customer satisfaction. That's why we recently conducted a survey to get your opinion about our products and services. We've tallied the results and are pleased with the feedback! Our customers spoke loud and proud of their experience with us; this has given us invaluable insights into areas where we can improve in order to better serve you.

Our team is dedicated to developing strategies that will ensure every purchase from Midsteel Flanges and Fittings is a positive one. Thank you for your candid responses; they mean the world to us!

How do you rate our responsiveness in dealing with your enquiries?

ISO 9001-2015 RE-AUDIT SUCCESS!

Midsteel Flanges & Fittings is proud to announce that our December ISO 9001-2015 re-audit was a resounding success. Our dedication to ensuring exceptional customer satisfaction and continual improvement drove us towards an impressive audit result. We take great pride in upholding the best practises of quality control, risk management, and organisational trust that are integral components of the ISO 9001:2015 framework. Midsteel Flanges & Fittings is committed to ensuring all customers have access to reliable products and services, and we feel confident we will continue to meet their expectations moving forward.
